

## **OREGON FAITH & FREEDOM COALITION**

You know that Oregon has a big problem...**for too long we have been ruled by a liberal elite (and now they are worse – Progressives)!** These elitists keep control of our state with their liberal election machine, and the compliant and complicit media. **There is no transparency and independence in our Oregon government!** In the past weeks we saw the Oregon Public Records Advocate resign from the position, all because the Governor (Brown) was trying to make the advocate an arm of the governor, and not a representative of the people. This, of course, destroys the entire purpose for the office and proves that the Governor was never in favor of transparency in government. Beyond that, **I am sure you are aware of the many bad laws passed by the Oregon Legislature in the last Session and how the conservative/republicans in the Oregon Senate had to do the only thing they could do to try and stop some really bad things by departing the state (Cap and trade bill, gun rights) and denying the democrats the quorum they needed to conduct business.** They temporarily denied the liberals of some big things they wanted to do. Unfortunately, they can come back in the next short session and likely pass the job killing carbon taxes, limiting gun rights, and more (probably attacking parental rights with the mandatory 72 vaccinations schedule). **In the midst of all of this, would you do something about it if you could? The protection of your family, your state, your nation, your personal wealth, personal safety and legacy are at stake.**

I propose we unite and take back our state before it's too late. How do we do this? First, let's look back at our history. The year **2010 was the high point of Republican Conservative efforts in our state. In that year, a well-planned voter identification and get out the vote plan was executed in our state. Also, a very active Americans for Prosperity (AFP) chapter existed.** These two things helped to identify the potential voters needed to help turn the tide and the House was tied and the Senate too came within 300 votes of being tied. The county-by-county effort of AFP helped energize and bring volunteers in the effort. In that effort many things were discovered about building the voter hot button identification and turnout machine that is needed to again turn the tide our way. And we also need to take lessons from the year to build an organization in every county in Oregon.

**Second, let's organize. Using tools discovered and used in the 2010 election** when 1 million automated calls, 375,000 paid calls and an active voter Identification program helped turnout new and unaffiliated voters to our candidates and volunteer training and organization done by AFP I believe we can take back our state. I propose that we quickly organize and create a chapter of the national group "Faith and Freedom" to combine these two critical things that made the difference in 2010 when the Oregon House was tied at 30 to 30 and we were 300 votes from tying the Oregon Senate.

**Third, let's work with new natural allies, like the Slavic Christian Community.** This community may number in the 250,000 voter range and has not been historically engaged in voting or interested in politics. Their history of moving from eastern bloc countries where political involvement was not safe, so they didn't engage in it when they came to the U.S.. Now, the threat of forced vaccinations has determined them to learn about and be involved in politics.

**Fourth,** the Democrat Party, in a recent discussion of whether to allow Unaffiliated voters, or NAV's into their primary **recently disclosed that there are 319,000 conservatives sitting in that group of registered voters.** Let's identify those people, appeal them to vote and get them out to vote!

**If you would like to help us return Oregon to a more sane direction, please go to and make a political action tax credit gift to our Oregon Faith and Freedom Pac** ([www.oregonfaithandfreedom.org](http://www.oregonfaithandfreedom.org)).
